[redacted]

Yes, I did attend the meeting and my apologies for completely forgetting to brief you on it.

It was attended by about 20 people from [redacted] who chaired the meeting down to Captains various, and there was a US Army MP Captain who told us all about what they are doing in Bagram and Guantanamo, and an Aussie Major who is attached to the Army L:egal Services. Whilst I can't say that we would have missed much by not attending, it did enable me to remind the assembled crowd of the need to approach PH, TQ, Interrogation and the PWHO holistically and not to get too wound up in prisoners' rights at the expense of int. They in turn were very reassuring that there would be no interference in TQ or interrogation activities and that the proposed TA Mod Provost Service unit would not be involved with us but were there to advise/train the Commander and the PWHO on prisoner handling.

It was an interesting presentation by [redacted]
