Se r	DTG	Initiator Appointment Unit	Summary of Activity	Lesson Identified	Action/Recommendation
				begin to satisfy demand, and the papers are often a week late.	
14.		Maj N Channer 2IC 1 BW BG	G3 Plans - Policing	The development of a local police and security force is key to the establishment of security in the BG AO.	In time, civilian police officers from the international community will be required to assist with the development of the local police.
15.		Maj A Fraser BGLO 1 BW BG	G3 - PW Handling	Errors were made in basic PW handling within the BG - eg. completion of forms, handling of personal property. The BG had conducted a study prior to deployment at jnr comd level.	PW trg should have been reinforced and repeated.
16.		Maj N Channer 2IC 1 BW BG	G3 - PW Handling	The BG did not manage the handling of PW on transition to Ph 4 well. Procedures for PW handling in combat were well established, and were initially still applicable in the transition as the BG was engaged in continuing contacts with an enemy. However, as transition progressed, there was an increasing requirement to source HUMINT from all PWs and detainees. In addition, the distinction between these 2 categories became blurred.	Closer linkage required within BG between G2 and PW Handling NCO. G2 provides RFIs. PW Handling NCO conducts Tactical Questioning as well as simple custody. PW Handling NCO writes report for IO or JFIT.
17.		Capt G Lockett G5 1 BW BG	G5	G5 adequately resourced with 2 x offrs & 1 x SNCO, plus US CAT. However, without the US CAT, the BG G5 would not have been strong enough. Each Coy has 1 x G5 rep (offr/SNCO).	Robust G5 orbât required at BG and sub-unit level.
