

CURRICULUM VITAE

NAME John Jason Payne-James

PROFESSIONAL ADDRESS Forensic Healthcare Services Ltd
Suites G & H, Stronghold House
[REDACTED]
T: [REDACTED]
F: [REDACTED]
E: [REDACTED]
DX [REDACTED]
[REDACTED]

DATE of BIRTH [REDACTED]

NATIONALITY British

EDUCATION

The London Hospital Medical College Turner Street, Whitechapel London E1	1975
Cardiff Law School, University of Wales	1992

QUALIFICATIONS/AFFILIATIONS

Bachelor of Medicine, Bachelor of Surgery London University	1980
Fellow of the Royal College of Surgeons of Edinburgh	1985
Fellow of the Royal College of Surgeons of England	1987
Registered Nutritionist (Nutrition Society)	1991
EC Certificate of Specialisation - Gastroenterology	1993
Master of Laws (Cardiff Law School)	1995
Diploma of Forensic Medicine	2000
Member of the Faculty of Pre-Hospital Care of the Royal College of Surgeons of Edinburgh	1996
Single Joint Expert Training	1999
Registered with Council for the Registration of Forensic Practitioners (Number 1802)	2005-2009
Fellow of the Faculty of Forensic & Legal Medicine (RCP)	2005
Fellow of the Forensic Science Society	2006
Master of Science (University of Ulster)	2007

OTHER SOCIETIES/ASSOCIATIONS

British Association in Forensic Medicine
European Society of Parenteral and Enteral Nutrition
British Association of Parenteral & Enteral Nutrition
Primary Care Society of Gastroenterology
College of Emergency Medicine (Associate Fellow)
Fellow of the Royal Society of Medicine (formerly Council Member
of the Section of Clinical Forensic & Legal Medicine)

Centre for International Forensic Assistance
 British Society of Gastroenterology
 British Association of Human Identification
 American Academy of Forensic Sciences
 Medico-Legal Society
 British Academy of Forensic Sciences
 Society of Authors (Committee of Medical Writers Group)
 Society of Expert Witnesses
 Expert Witness Institute (Founding Member)

POSITIONS HELD

Consultant Forensic Physician

David Jenkins Chair of Forensic & Legal Medicine, Faculty of Forensic & Legal Medicine 2008-2009

Honorary Senior Lecturer – Cameron Centre for Forensic Medical Sciences
 Queen Mary, University of London 2007-

Vice-President (Forensic Medicine) Faculty of Forensic & Legal Medicine
 2006-2010

Forensic Medical Examiner – Metropolitan Police Service 1990-

External Consultant to National Injuries Database and National Policing Improvement Agency

Specialist & Lead Assessor – Council for Registration of Forensic Practitioners 2006-2009

Endoscopist/gastroenterologist, Queensway Surgery
 Southend-on-Sea (part-time) 1994-

Editor - Journal of Forensic & Legal Medicine 1994-

Editor - Current Medical Literature - Clinical Nutrition 1992-2004

Director – Payne-James Ltd 2010-

Director – Forensic Healthcare Services Ltd 1999-

Director - Greenwich Medical Media Ltd 1995-2000

Consultant - Baxter Healthcare, Paris, France 1992-2005
 Consultant - Nestle UK, Croydon 1992-9

Honorary Senior Research Fellow, Gastroenterology & Nutrition, Central Middlesex Hospital 1991- 2003

Registrar - Accident & Emergency Medicine,
 Whipps Cross Hospital, London 1991

'Radio Doctor' – Steve Allen Programme – LBC 1990-1991

Consultant - Viggo Spectramed 1989-1991

Research Fellow - Gastroenterology & Nutrition,
 Central Middlesex Hospital, London 1986-90

Registrar - General Surgery, Vascular Surgery, Thoracic Surgery - Whittington & Royal Free Hospitals, London	1985-86
Registrar - General Surgery, Orthopaedics. Westminster Hospital, London	1984
Registrar - General Surgery, Southend & Rochford Hospitals, Essex	1983
Senior House Officer - Accident & Emergency, Princess Margaret Hospital, Swindon & Queen Mary Hospital, Roehampton	1982-83
Anatomy Lecturer, London Hospital Medical College	1981-82
House Surgeon & House Physician, The London Hospital & Oldchurch Hospital, Essex	1980

JOURNAL REVIEWER

European Society of Parenteral & Enteral Nutrition
Journal of Hepatology & Gastroenterology
Digestive Diseases & Sciences
Clinical Nutrition
Nutrition

MISCELLANEOUS

Aspects

Member – Forensic Experts Group	
International Rehabilitation Council for Torture Victims	2009-
Examiner – Society of Apothecaries – Diploma in the Clinical & Forensic Of Sexual Assault	October 2009
CPD Working Group – Forensic Science Society	2009 -
Forensic Human ID Course	March 2009
Examiner for MSc Forensic Medicine – Barts & the London School of Medicine & Dentistry	2008 -
Board Member of Faculty of Forensic & Legal Medicine (Member of Education Committee, Member of Academic Committee, Member of Recertification Committee)	2006- 2006-
Association of Chief Police Officers/Royal College of Psychiatrists Liaison Committee	2006-
Member of AFP Steering Group for the Faculty of Forensic & Legal Medicine	2003 - 2006
Member of Commissioner's Advisory Panel - Metropolitan Police Service	2003 – 2008
Lead Assessor for the Council for the Registration of Forensic Practitioners	2006 - 2008
UK Delegate for the European Council of Legal Medicine	2004 -
BMA Forensic Medicine Committee	2003 - 2004
Reviewer for ESPEN Congress Abstracts	1990 -
Medical Writers Group Committee – Society of Authors	2000-2004 & 2008-
Editorial Board of the Internet Journal of Forensic Medicine & Toxicology	2000-

Medical adviser – Custody Nurse Gold Group – Metropolitan Police Service
 BAPEN Working Party for Guidelines in Enteral Nutrition 1996-9
 Medical Advisory Board - 1st National HomeCare Symposium 1999
 Medical adviser to patient group – PINNT 1990-1997
 Honorary Editor of LITRE Magazine 1990-1997
 Judging Panel IVCA and BMA Video and Film Awards
 Medical advisor to television production companies

Examples of Consultations and Advice in Reports & Inquiries

Home Office Scientific Development Branch. Ebling D, Thomas G. Review of life signs monitoring in custody cells: the cell occupancy monitoring system produced by COSATT, 2008

Standards on Use of Section 136 of the Mental Health Act 1983 (amended 2007). Version for England only. Report of a multi-agency group led by the Royal College of Psychiatrists

Clinical Review in Report by the Prison Ombudsman for Northern Ireland into the circumstances surrounding the death of David Michael Kincaid in Magilligan Prison on 25th September 2007

DOMILL/ACPO Medical Management of Taser Guidance – 2008

I have co-authored guidelines '**Head Injury Advice Leaflet for custody officers, gaolers & detention officers**'; **Recommendations: Safe and Secure Administration of Medication in Police Custody; Incapacitant Spray and Choking** and am currently co-authoring guidelines on **Taser**, for the Faculty of Forensic & Legal Medicine.

Areas of Work

My work embraces four main areas drawing on my medical, legal, forensic and clinical/research/education/writing backgrounds - legal and clinical forensic aspects of medicine; clinical nutrition; gastroenterology; author/writer/lecturer.

Forensic & Medicolegal

I am a forensic physician and was a **Senior Forensic Medical Examiner** to the Metropolitan Police Service and City of London Police between 1990-2008. I remain active as a forensic physician with the Metropolitan Police Service and as a consultant to assorted bodies. In this role I have been responsible for the general medical care and forensic assessment of detainees in police custody, which included suspects of crime and the assessment of restraint injuries such as those from police batons, handcuffs, incapacitant sprays and Tasers. I undertake the medical care and forensic assessment of complainants of crime and those detained under terrorist legislation. This work had elements of both primary care, mental health and forensic assessment. I have assessed many victims of alleged torture and am familiar with and teach on aspects of **the Istanbul and Minnesota Protocols**. I undertook the course in **Forensic Human Identification** in May 2009.

Clinical forensic medicine requires knowledge within the areas of alcohol and drug misuse, mental health law, assault and injury (including assessment, diagnosis, treatment and prognosis), pathology of injury, occupational health, child abuse and sexual assault. I am instructed and appear in court regularly as an **expert witness** for prosecution or defence in most of these areas. I have been involved in reviews of a number of cases of death in police and prison custody for (amongst others), the IPCC, the Prison & Probation Ombudsman, & the Prison Ombudsman of Northern Ireland. Such work may involve physical examination, photographic examination, review of evidence (eg video, DVD, CD ROM) and production of full reports incorporating such material. I am external **Consultant to the National Injuries Database and the National Policing Improvement Agency**. I will go out to police forces around the UK to provide advice and consult with investigating officers. I appear regularly in court at all levels – from magistrates court to the Court of Appeal. I appear in courts across England, Wales and Scotland. I was **Lead & Specialist Assessor for the Council for the Registration of Forensic Practitioners** until its dissolution in March 2009.

I have been closely involved in research that has studied mental health, alcohol misuse, drug misuse, mental health, HIV prevalence, violence and treatment of individuals in police custody – including near misses and deaths in custody (**with the Independent Police Complaints Commission**), police assault and restraint injuries. I am currently medical lead on developing collaborative projects on the effects of incapacitant sprays and Taser. I submit research work to relevant meetings nationally and around the world. I frequently work, teach and educate doctors, healthcare

personnel and others on a worldwide basis. I have been responsible at various times for the medical training in deaths and care in custody to all new custody officers working within the Metropolitan Police Service and continue to teach on aspects of healthcare of detainees.

I have a specific interest in **near-misses and deaths in custody** and have reviewed, from a medical point of view, over 30 deaths in police or prison custody and numerous near-miss incidents. Reviews have been on behalf of a number of agencies including the IPCC, PPO, coroners, police forces and families.

I have been closely involved in the establishment and development of **the Faculty of Forensic & Legal Medicine of the Royal College of Physicians**. I was elected to serve as the first Vice-President (Forensic Medicine).

I have obtained Home Office funding to establish a **Cochrane Collaboration Review Group in Forensic Medicine** which I will lead. This international collaboration once established is expected to be based at the Royal London Hospital.

To assist, more specifically how my knowledge, experience and expertise in legal medicine may be used I list a number of specific functions which I may be asked to carry out:

- a) Personal attendance at scenes of crime scenes and suspicious deaths taking an active part in the teamwork requires for on-site investigations. I am familiar with external and internal post-mortem changes (and have co-written Clinical Forensic Medicine: Colour Guide for which I have contributed a chapter on these changes)
- b) I have a knowledge of medico-legal criminalistics including the detection, collection and preservation of all trace evidence material, and the sampling of stains and body fluids (I hold the Diploma in Forensic Medicine)
- c) I am familiar with the methods by which detailed external examination of the deceased should be carried out, and am familiar with the different methods of estimating the post-mortem interval (I have co-edited a textbook – Forensic Medicine – Clinical & Pathological Aspects – which includes specific chapters on such methods)
- d) I do not undertake forensic autopsies but am familiar with the techniques and specialised post-mortem forensic investigative procedures. and have a sound knowledge of anatomy and forensic pathology: I advise both Crown & Defence and coroners on autopsy reports with respect to my specialist areas to assist in the elucidation of causes and manners of death over a wide spectrum of manners of natural and non-natural death, including homicide, suicide and fatal accidents (as a gastroenterologist, surgeon, forensic physician and expert witness)
- e) I am very experienced in the medical examination and detailed description and assessment of injuries and their sequelae on living and deceased persons throughout the age spectrum, including cases of abuse (such as sexual abuse etc) which enables a full evaluation of aspects of direct legal interest such as their method of infliction, possible causation, consequences and complications (in my work as a forensic physician and as an expert witness – I have written chapters on all aspects of adult sexual abuse and child abuse)
- f) I am familiar with mechanisms of intoxication, and the clinical and laboratory evaluation for the presence and degree of intoxication in the living and the dead (in my work as a forensic physician and as an expert witness)
- g) I am familiar with sampling requirements, with investigative laboratory techniques including their discriminatory value, and their margins of error, and with the interpretation of analytical reports in the context of all other relevant findings in the case. (in my work as a forensic physician and as an expert witness)
- h) I have a knowledge of the principles of forensic genetics including disputed paternity and investigation of biological stains
- i) I am familiar with identification procedures and methods including elements of forensic anthropology and odontology and the procedures to be followed after major incidents
- j) I am very experienced with medico-legal aspects of fitness in certain skills, duties and legal procedures which are subject to detailed legal provisions including the medico-legal assessment of persons in detention (such as fitness for custody, for interview, to plead, to drive etc)

k) I am familiar with the forensic aspects of physical and mental health (and have undertaken a Master degree in Laws which includes study and examination on mental health law)

l) I have a detailed knowledge and experience of the legal status of the expert, of the laws of evidence and the legal consequences of medical actions (I am co-editor of first and second editions of the textbook 'MedicoLegal Essentials of Healthcare')

m) I am very experienced in the compilation of authoritative medico-legal reports to relevant authorities, describing in detail the findings and results of any examinations carried out and including a full and pertinent commentary which provides balanced scientific opinion and conclusions (I have provided expert reports and given evidence in all levels of Court proceedings to the level of the Court of Appeal).

Clinical Nutrition

I was **Nutrition Team Leader** at the Central Middlesex Hospital between 1986 and 1990 where I developed my clinical and research interests in all aspects of clinical nutrition. I have undertaken research in substrates, delivery and metabolism of enteral and parenteral nutrition. I have been involved in teaching and education at national and international level in parenteral, enteral and home nutrition. I have published widely in these fields and am working on the third edition of the book of which I am lead editor – '**Artificial Nutrition Support in Clinical Practice**' and the small handbook 'Key Facts in Clinical Nutrition'. I was founder and co-editor of the secondary reference journal – Current Medical Literature – Clinical Nutrition.

I was previously external medical consultant to Baxter Healthcare (and also Nestle UK and Viggo Spectramed). My responsibilities have included staff education/training, production of clinical expert reports, regulatory process, assessment of research projects, strategic advice and medical advice. My role has involved teaching, education to both company personnel and to healthcare professionals in Europe, America and Asia. I have particular interests in raising awareness of the need for nutrition support and delivery of such therapies.

Gastroenterology

I am **endoscopist/gastroenterologist** to Queensway Surgery - a general practice in Southend-on-Sea in Essex. I undertake diagnostic endoscopy and gastroenterology consultations. I spent 4 years full time as a clinical Research Fellow at the Department of Gastroenterology and Nutrition at the Central Middlesex Hospital between 1986 and 1990. I hold the EC Specialist Certificate in Gastroenterology.

Miscellaneous

I was founding director of Greenwich Medical Media Ltd (www.greenwich-medical.co.uk), a publishing company specialising in medical and healthcare subjects. GMM publishes books and journals for a wide variety of audiences including lay individuals. The company was sold to Cambridge University Press in 2003.

With others I established a company – Forensic Healthcare Services Ltd (www.forensic-healthcare.com) – a company providing expert witnesses (www.experts4law.com) for the criminal and civil systems and other bodies, and which can provide training in these areas.

Techniques & devices

Palliation of Malignant Dysphagia

This is a technique described by myself and colleagues for the palliation of malignant dysphagia secondary to neoplasms of the stomach and oesophagus (Ethanol-induced Tumour Necrosis - ETN). It is of particular use in patients with inoperable and/or irresectable tumours and those patients with tumour recurrence at anastomosis following surgery, and is appears to be as good as laser palliation.

Grasping Forceps

I designed and developed endoscopic forceps for tube and foreign body manipulation which are in commercial production (CMH Graspers - Georg Pauldrach).

Post-operative Gastric Aspiration/Feeding Tube

I designed and developed a double-lumen post-operative tube which allows simultaneous gastric aspiration and intraduodenal/jejunal administration of feed. (Corpak USA).

Oesophageal Assessment Tube

In conjunction with the Philip Shorvon I designed a novel method for radiological assessment of oesophageal stricture.

Percutaneous endoscopic gastrostomy/jejunostomy tube

In conjunction with clinicians in the USA I developed a jejunostomy conversion of a PEG (Bower PEJ - Corpak USA)

Writing

I have extensive experience in the production of medical scientific papers for peer-reviewed journals, meeting reports, journal editing, book editing, chapter and book authorship and industrial report writing for statutory bodies, professionals and for lay persons (see **Publications** for further details).

Videos

Percutaneous Endoscopic Gastrostomy (for E Merck)	-	wrote, produced and directed.
Palliation of Malignant Dysphagia by Ethanol-induced Tumour Necrosis	-	wrote, produced and directed.
Enteral Nutrition (for Clintec Nutrition)	-	co-writer, produced by MediCine.
Parenteral Nutrition (for Clintec Nutrition)	-	co-writer, produced by MediCine.
Enteral Feeding Tubes: pernasal insertion and care (for E Merck)	-	wrote, produced and directed.
Risk Management in Intravenous Therapy (for Viggo-Spectramed)	-	presenter, co-writer, HTV produced
Putting Parenteral Nutrition into Practice (for Clintec Nutrition) (BMA 1997 Certificate of Educational Merit)	-	wrote, GMM & Prospect Pictures
Nutritional Assessment (for Clintec Nutrition)	-	co-production co-writer, produced by MediCine.

Lectures (lists *samples* of invited lectures/workshops)

285. Stoke Mandeville Hospital – November 1993- Nutrition Needs in Spinal Injuries
286. East Surrey Hospital – Nutrition Study Session – 14 10 93
287. St Bartholomews Hospital – Motor Neurone Disease and Nutrition – February 1991
288. Hunterian Institute – Royal College of Surgeons – Nutrition and Surgical Disease – Spring 1991
289. Royal Brompton Hospital – Nutritional Support in Heart & Lung Surgery – June 1993

290. Fourth Cross Channel Conference – Utrecht , Netherlands – Workload of a Forensic Medical Examiner – April 1992
291. British Society of Gastroenterology – Needles in Endoscopy – September 1990
292. University of Southampton Nutrition Support Course – Enteral Nutrition – 1992
293. Kings Lynn & Wisbech Hospitals – Intensive Care Nutrition – November 1992
294. John Radcliffe Hospital, Oxford – The Skeleton in the Cupboard – October 1992
295. National Total Parenteral Nutrition Group – BAPEN – Nutrition & Pharmacists – December 1992
296. European Society of Parenteral & Enteral Nutrition – Nutrition Teams – why so few? – September 1994
297. Stoke Mandeville Hospital – Starving Patients – September 1994
298. National Total Parenteral Nutrition Group – Monitoring TPN – June 1994
299. British Society of Gastroenterology – Nutritional Symposium – September 1996
300. Association of Police Surgeons – Autumn Symposium 1998 – Research and Publication Workshop
301. University College Hospital – Galway – Nutritional Care in the Intensive Care Unit – September 1999
302. Ganepao 2000 – Sao Paulo, Brazil – Specific TPN Formulation and Commercial Compounding – July 2000
303. Association of Police Surgeons – Workshop – Getting Published – 12th May 2000
304. Metropolitan Police Service – Rape Investigation Conference – Sexual Offence Training - June 2001
305. Bulgarian Society of Parenteral and Enteral Nutrition – May 2001 – Development and Role of MCBs
306. European Medical Students Association – March 2002 – The Role of the Forensic Physician
307. Czech Society of Clinical Nutrition and Metabolic Care – April 2002
308. Turkish Society of Parenteral & Enteral Nutrition – December 2002 – 3 in 1 technology
309. City of London School for Girls – December 2002 – Medical Law and Forensic Medicine
310. Althorne Girl Guides – July 2003 – Legal Medicine
311. Sexual Health Forum – Royal Society of Medicine – June 2003. Clinical Forensic Medicine: developing a specialism
312. Role of FMEs – IPCC Caseworkers - 2004
313. Various lectures on Deaths and Care in Custody – 2004
314. Training to custody officers within the Metropolitan Police Service – 2004
315. Forensic examination of sexual assault complainants (MPS and RCPCH) – 2004
316. Death in custody – Metropolitan Police Service – series of symposia – 2004
317. New Zealand – Current Practice in Clinical Nutrition – Lecture Tour – NZSPEN – 2004
318. Russian Society of Parenteral & Enteral Nutrition – Parenteral nutrition in the 21st Century - 2005
319. Taiwanese Society of Parenteral & Enteral Nutrition – Intensive care and oncology: a role for glutamine? 2005
320. Sexual Offence Examination – Essex Police – 2005
321. Sexual Offences Examination and Injury Interpretation – International Committee of the Red Cross – Jordan – 2005

- 322. Clinical Forensic Medicine Training – UN – Office of Missing Persons & Forensics – Kosovo – 2006
- 323. Human Rights & Medical Ethics – Foreign & Commonwealth Office – Beirut Bar Association – 2007
- 324. Peruvian Anthropology & Human Rights Association – assessment of torture victims – Lima – 2008
- 325. Lebanese Government – Foreign & Commonwealth Office – Istanbul Protocol – Beirut 2009
- 326. Clinical Forensic Medicine – worth the effort? David Jenkins Lecture – Faculty of Forensic & Legal Medicine – May 2009
- 327. Sexual Offence Investigation – Criminal Bar Association – June 2009
- 328. Forensic Medical Evidence in Sexual Assaults – Serious Sexual Offences Course – Crown Prosecution Service – September 2009
